### THE PRECAST EXPERTS

Infracast has been manufacturing high-quality precast products from the heart of Eswatini's industrial hub, Matsapha, for more than 30 years. Our commitment to maintaining the highest standards of innovation, quality and services has driven our contribution to infrastructure developments within the kingdom and beyond borders.

We've never let a client down.

We always honour our commitment of delivering quality products and service .

### WHAT MAKES US DIFFERENT

#### Technology-supported products.

We invest in best-of-breed technology, which is key to producing effective products designed for longevity and performance.

#### Quality guaranteed.

All our products are manufactured to stringent quality standards in accordance with SANS 986:2019, SANS 1294:2020 and SANS 687:2020 and our factories are all SABS approved.

#### Safety first.

We place significant emphasis on safety both in the work place and application of our products.
