Infracast is Eswatini's leading precast concrete manufacturer, proudly local and committed to building the nation — one structure at a time. As part of a broader infrastructure and industrial group, we specialise in delivering cost-effective, high-quality concrete solutions with speed, scale, and integrity.

VIP Precast Toilets

A dignified, durable, and cost-effective sanitation solution — engineered for scale and built for the people of Eswatini.

Whether for rural sanitation rollouts, disaster relief infrastructure, or public-sector service delivery, our VIP Toilets are designed to be easily transportable, fast to install, structurally sound, and ready for national tenders. While VIP toilets are the spotlight, we also manufacture:

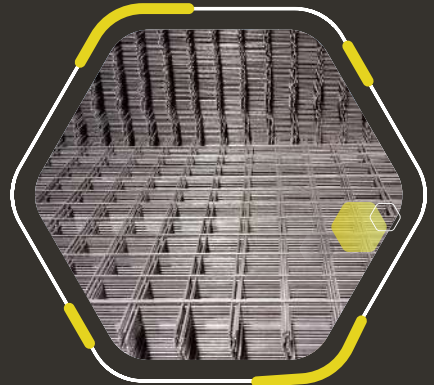

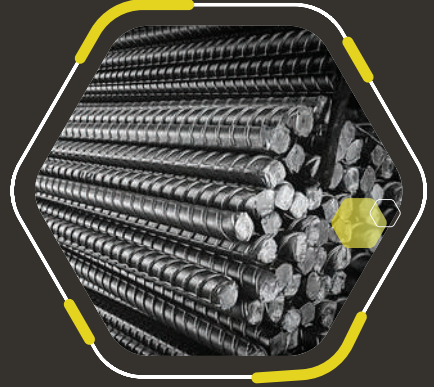

- Culverts (Ready for Roads. Ready for Rain.)
- Concrete Poles
- Kerbs, Pavers, and Blocks
- Stormwater Channels & Trenches

ADDITIONAL CONSTRUCTION PRODUCTS

Infracast has built its reputation on delivering high-quality precast concrete solutions that shape durable infrastructure. Guided by our slogan, Innovation Cast in Concrete, we continue to evolve with the needs of the construction industry.

As part of this commitment, Infracast has expanded into the supply of PVC pipes, HDPE pipes, and steel products, offering our clients a broader, reliable range of construction materials. This expansion allows us to provide integrated solutions that uphold the same standards of quality, performance, and innovation our customers trust.
